

F-14 Tomcat Assembly Instructions

It is recommended that you first assemble the model, or individual parts, without using glue, in order to familiarise yourself with the position of each piece.

Parts List (Number of pieces in brackets)

A – Main Fuselage (1)

B – Upper Fuselage (1)

C – Vertical Stabiliser (2)

D – Stabiliser Support (2)

E – Cockpit Assembly (1)

F – Display Stand Supports (2)

G – Display Stand Base (1)

Method

Attach upper fuselage B to main fuselage A, aligning B1 with A1.

Attach cockpit assembly E1 to fuselage section.

Fit stabiliser support D1 to top of fuselage, aligning D1 with A2. Attach vertical stabiliser C1 to main fuselage A2. Repeat for other side.

Attach F2 to G1. Repeat for second support.

Attach assembled aircraft to stand, aligning F1 with A3. Aircraft should be in a nose-up attitude.
