

# Four-tower Castle Assembly Instructions

## Parts List – (Number of items in brackets)

A – Front Wall (1)

B – Back Wall (1)

C – Outer Side Walls (2)

D – Inner Side Walls (2)

E – Tower Floor (4)

F – Walkway (2)

G – Inner Tower – Large Archway - (4)

H – Outer Tower – Small Archway - (4)

J – Drawbridge Support (2)

K – Drawbridge (1)

**Your castle can be permanently glued with white wood glue**

## Method

Fit E1 and E2 into G3 and G4. Fit E3 and E4 into H3 and H4. Repeat these steps to complete 4 towers.

Fit F1 and F2 into C7 and C8. Fit F3 and F4 into D7 and D8.

Fit C5 and D5 into B1 and B2. Repeat for opposite side, making certain that the inner wall archway faces inwards.

Fit C6 and D6 into A5 and A6. Repeat for opposite side.

Fit the assembled towers into C1 and C2, and D1 and D2. The large archway should face inwards to align with the walkway F. repeat for the remaining three towers.

Fit K1 and K2 into J1. Repeat for opposite side.

Fit the completed drawbridge assembly to the front panel A, where J2 slides into A3 and A4.

Your castle is finished.

**WARNING:** Do not force any parts. If a part does not fit, lightly rub it with sandpaper until it will fit.
